Shows Scripture, Ancient Historian and Archeology Proof of Writing before the Flood

Book of Remembrance

Genesis 6:47 And death hath come upon our fathers; nevertheless, we know them, and cannot deny, and even the first of all we know, even Adam; **for a book of remembrance we have written among us, according to the pattern given by the finger of God; and it is given in our own language.**

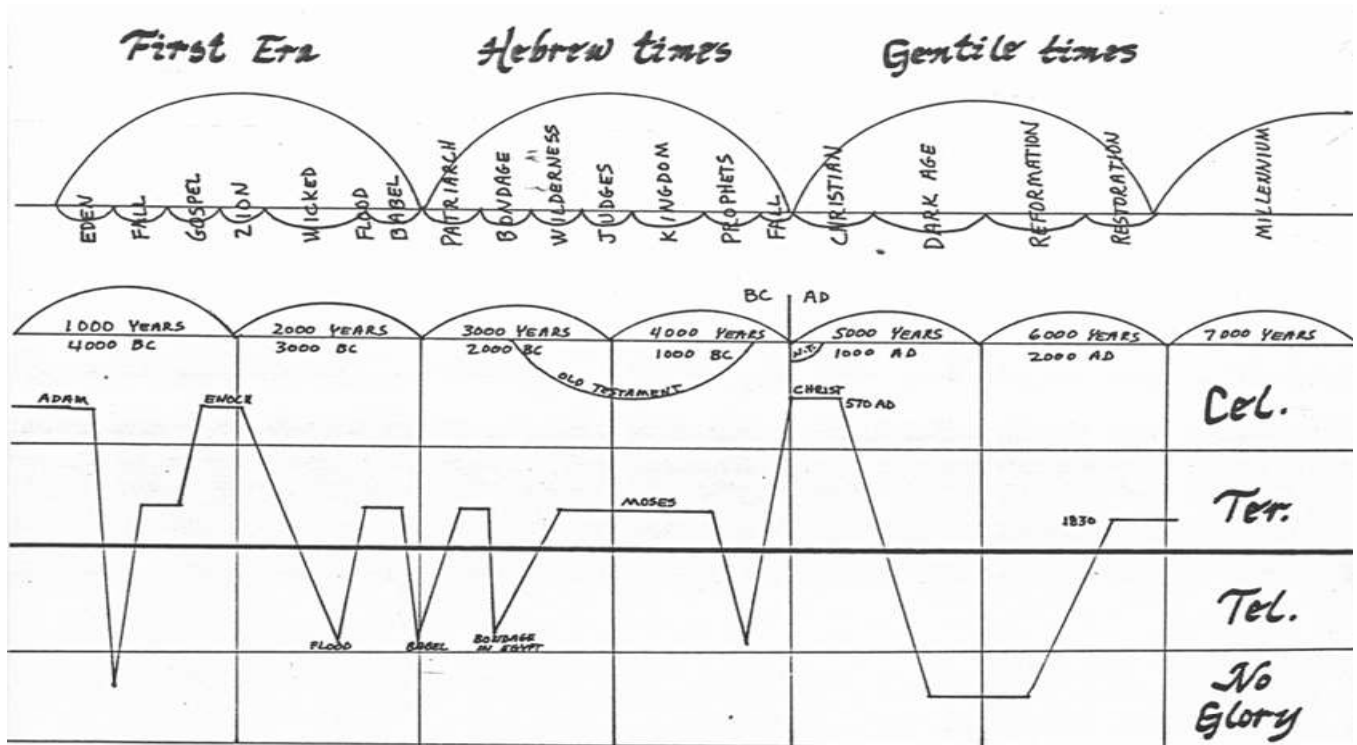

Josephus P.28 = "For there is no reason to imagine that men were not taught to read and write soon after they were taught to speak; and perhaps by the Messiah himself, who under the Father was the Creator of mankind.

Dr. Langdon, excavating near Babylon, reports that Babylonian and Assyrian scribes frequently refer to the age "before the flood," and that one king whose writings remain, praises himself as one "who loved to read the writings of the age before the flood".

D. R. Hugh's Time Line Chart

In 1868 Professor H. Mitchell, of the United States Survey, was sent by the Government to report on the progress of the Suez Canal. Struck with the peculiar curvature of the shore line of the Delta of the Nile, he took a good map and drew a curved line touching all the prominent points of the coast, and found that it formed an arc of a sector whose centre was located at the site of the Great Pyramid. Thus, without any knowledge of the Biblical prophecy, he confirmed the fact that the Great Pyramid was located at the centre or in the MIDST of Egypt, and as the Delta, or Lower Egypt, comprised the section of Egypt included in the sector, and the Great Pyramid stands on the BORDER between Upper and Lower Egypt. Therefore, the Great Pyramid is both in the MIDST of Egypt, and on its BORDER.

Math and the Great Pyramid

The design of the Great Pyramid of Giza may embody the foundations of mathematics and geometry ¹. Some mathematical facts about the Great Pyramid of Giza include ¹ ²:

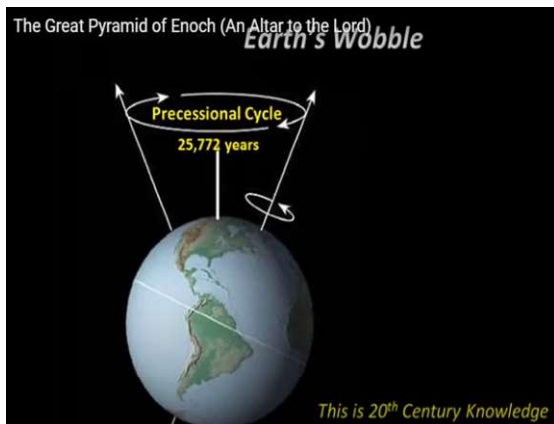

- Phi, the Golden Ratio that appears throughout nature.
- Pi, the circumference of a circle in relation to its diameter.
- The Pythagorean Theorem, which can be expressed as $a^2 + b^2 = c^2$.
- The sides of the Great Pyramid point North within two or three arcminutes.
- Its slope angle is closely one-seventh of a circle, i.e. 51.4° . More exactly, it is given A when $\cos A = 1/\Phi$ where Φ is the golden ratio. So slope angle is $51^\circ 50'$.

The Sacred Inch

The basic unit of measure within the pyramid is the “Sacred Inch.” This same inch, in the sacred cubit, is also used in Noah’s Ark, the Ark of the Covenant, Solomon’s Temple, and in the New Jerusalem. This inch is only a half of a hair’s breadth different than the English inch and the American inch. The source of this inch is the axis of the earth. 1/500,000,000th part of the earth’s axis is equal to the sacred inch. The Metric system uses the circumference of the earth from the pole to the equator as its source. Since that distance varies at different places measured, the most logical and accurate system of measurement then would be the sacred inch system, because the earth’s axis doesn’t change.

Isaiah 19:19-20 Points to Giza = All Hebrew writing has numeric value. On the chart below the value of every letter is given and each line represents a word.

— Isaiah 19: 19-20 —

ביום ההוא יהיה מזבח ליהוה בתוך ארץ מצרים ומצבה
 אצל גבולה ליהוה: והיה לאות ולעד ליהוה צבאות
 בארץ מצרים כי יצחקו אליהוה מפני לחצים וישלח
 להם מושיע ורב והצילם:

This Great Pyramid Text of Scripture, in the original Hebrew, contains 30 words. In Hebrew the letters of the alphabet were employed as arithmetical figures, consequently every word is also a row of figures and thus all Hebrew writing has numeric value. The above Hebrew Text as numbers is as shown below—the value of every letter is given and each line represents a word. **The total value is 5,449.**

(1)	2 + 10 + 6 + 40	= 58
(2)	5 + 5 + 6 + 1	= 17
(3)	10 + 5 + 10 + 5	= 30
(4)	40 + 7 + 2 + 8	= 57
(5)	30 + 10 + 5 + 6 + 5	= 56
(6)	2 + 400 + 6 + 20	= 428

This Great Pyramid is a Witness to the Gospel of Salvation Through Christ

Even the pagan text of the Egyptians attest to the fact that the Pyramid is of God.

Three thousand years before Christ, they wrote in the "Book of the Dead" which is a computation of papyrus scrolls = that the pyramid was called the "Pillar of Enoch".

The entrance way into the Grand Gallery was called = "The Passion of the Messiah".

They called the grand Gallery itself, which leads to the Kings chamber and is made of white stone the = "Hall of Truth and Light"

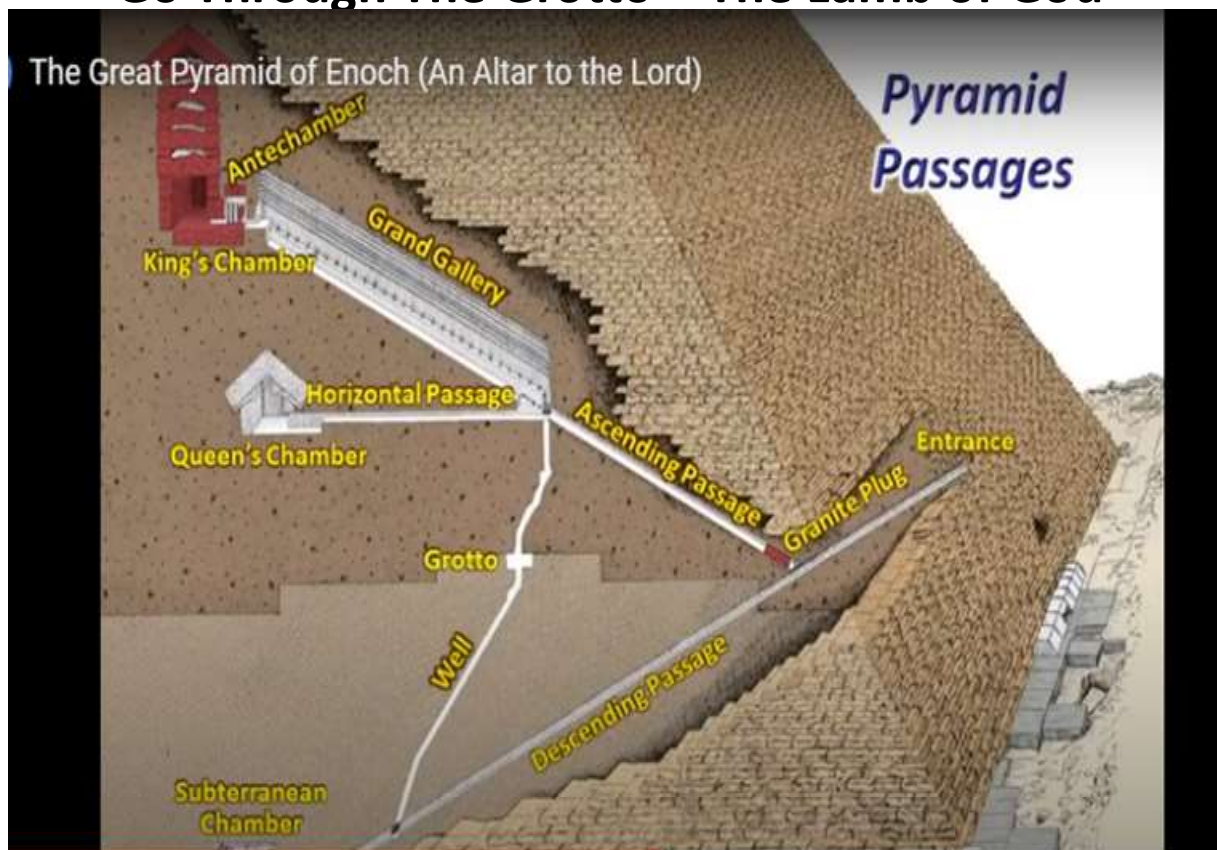

The descending passage they called = "The Chamber of Upsidedownness or Torment"
We call it Hell.

The Coffin

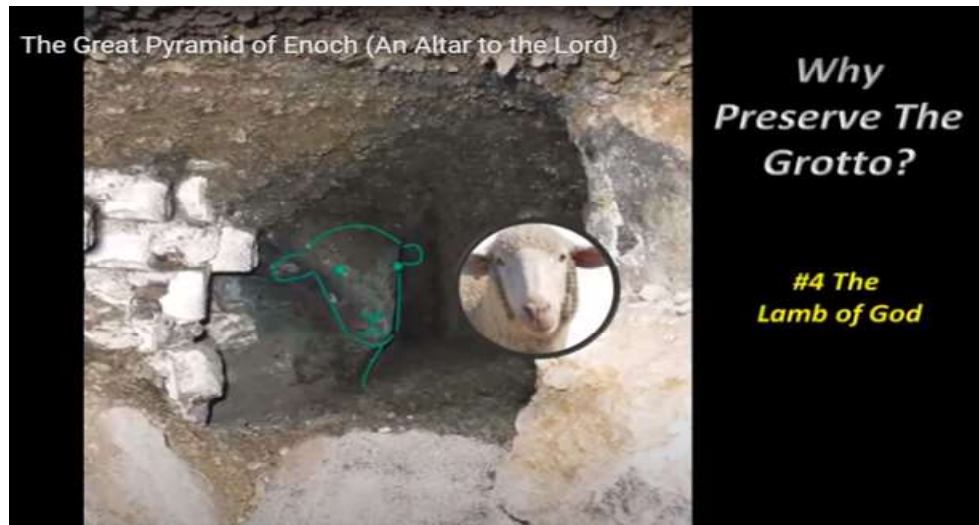

In the "King's Chamber" we find the only article of furniture in the Pyramid, a "COFFIN." It is a lidless, empty box, cut from a solid block of red granite, and polished within and without, but without ornamentation or inscription. The remarkable thing about it is, that its interior capacity is exactly equal to that of the Ark of the Covenant of the Tabernacle

The Ascending Passage is Blocked, You Have to Go Through The Grotto = The Lamb of God

Symbol of the Lamb of God Preserved in Natural Cave inside the Pyramid

The Lamb of God Rock in the Grotto

In the Pyramid of Giza we find (set in stone) a “Revelation of God and His Plan of Salvation.” The only way to get to God (Kings Chamber) is through the Lamb of God and the Cross. In Essence—the Gospel Story Told in Stone.
