problem solving

Expansion of Book Collection
in Classroom Libraries for
Junior High and High School

BRIGHT MINDS – BRIGHT FUTURES

Jourdanton Education Foundation connects donor resources to enhance the opportunities for JISD students and educators.

Creating opportunity for students is our priority. We know that education is key to success and education comes in many forms...books, shared knowledge, technology, hands on experience.

JEF utilizes donations to purchase equipment, programs, and supplies for teachers and students in the classroom. We also are building relationships with businesses and community members to provide students with mentorship, trade skills training, and job prospects.

JEF has an enhanced focus on gratitude for 2020 and beyond. We have established a new donor database software with additional features that will make staying up to date with our activities easier.

Finally, we know that our community gives generously all year long to many organizations. JEF board members are actively working on grants from private foundations and corporations. This allows us to tap into resources beyond our community and continue our mission seamlessly.

An investment in knowledge pays the best interest
